المجعية الملكية للكيمياء هي من اكر المجتمعات الكيميائية الرائدة في العالم، توصيل أجمع المقول في العلوم الكيميائية في أي مكان في العالم و النهوض و التميز في العلوم الكيميائية هو من اهم اولويات الجمعية. الجمعية الملكية للكيمياء منظمة غير هادفة للربح ذات ثراث من العمر يصل الى اكثر من 175 عاما ، لدى الجمعية رؤية دولية طموحة تأتي من أكثر من 52,000 عضوا من 114 بلدا في جميع مجالات العلوم والوساط الأكاديمية والصناعية. بالإضافة لبرامج التعليم (الجمع المعار ابتداء من سن الخمس سنوات) و برامج الاعتماد الأكاديمي لأقسام الكيمياء في الجامعات، فإن الجمعية الملكية للكيمياء تعتبر افضل ناشر في العالم في مجال الكيمياء و العلوم المتعلقة بالكيمياء حسب اخر تصنيف لل ISI بمعدل * تأثير 5.68 average Impact Factor لجميع الدوريات حيث ان أكثر من 85% من الدوريات لها عامل تأثير IF أكثر من 3 (أعلى عامل تأثير هو 33.38 وأقلها هو 1.82). الجمعية تنشر 42 دورية تغطي كافة تخصصات و فروع الكيمياء ، بالإضافة لانتاج أكثر من 100 كتاب سنويا و نشر العديد من قواعد البيانات. معدل التأثير (average IF) تم حسابه بجمع عامل التأثير IF لكل دورية و ثم قسمة الناتج على عدد الدوريات.

About our publications

The Royal Society of Chemistry publishes 45 peer-reviewed journals, around 2,000 book titles and a collection of online databases and literature updating services.

Our international publishing portfolio covers the core chemical sciences including related fields such as biology, biophysics, energy and environment, engineering, materials, medicine and physics. As a not-for-profit publisher, we reinvest surplus funds back into the global scientific community, supporting our mission to advance excellence in the chemical sciences.

Advanced Search Tips

Journal Articles / Book Chapters

The default search covers both journals and books content. To search only within journals or a single journal, select the option to 'Search for Journal Articles'. Separate search options are also available for book chapters.

Full Text / Keyword

Search phrase entered in this field will run a search across the full text of journals and books. The different search fields allow more complex searches to be run. Boolean Operators AND, OR and NOT (in capitals only) can be used while searching in the 'with all of the words' field. You can also use '+' (AND operator) and '-' (NOT operator).

The screenshot shows the Royal Society of Chemistry Books website. The browser address bar displays <https://pubs.rsc.org/en/ebooks#?key=title&value=new-titles>. The page header includes navigation links for Publishing, Journals, Books, and Databases, along with a search bar and a shopping cart icon. The main content area is titled "Books" and features a "New titles" section with a search filter. Below this, a list of books is shown, including "3D Printing in Chemical Sciences: Applications Across Chemistry" (ISBN: 978-1-78801-440-3), "Advanced Gas Chromatography in Food Analysis" (ISBN: 978-1-78801-127-3), "Advances in Ion Spectroscopy - From Astrophysics to Biology: Faraday Discussion 217" (ISBN: 978-1-78801-672-8), and "Advances in Nucleic Acid Therapeutics". To the right, there are sections for "About our books" and "Booksellers". The footer of the page indicates network access provided by the University of Tanta.

The screenshot shows the details page for the book "3D Printing in Chemical Sciences: Applications Across Chemistry" by Vipul Gupta, Pavel Nesterenko, and Brett Paul. The browser address bar displays <https://pubs.rsc.org/en/content/ebook/978-1-78801-440-3>. The page features a "Preliminary content" section with a table of contents listing chapters 1 through 4. Chapter 1 is "An Introduction to 3D Printing" (Pages 1 - 21), Chapter 2 is "3D Printing of Micro- and Macro-fluidic Devices" (Pages 22 - 55), Chapter 3 is "3D-printed Analytical Detectors" (Pages 56 - 93), and Chapter 4 is "3D Printing in Analytical Chemistry Methods and". To the right, there is a "Buy hardback" button for £159.00, an "Add to pick and choose" button for £477.00, and a "Publication details" section. The publication details include the print publication date (01 Apr 2019), copyright year (2019), print ISBN (978-1-78801-440-3), and PDF eISBN (978-1-78801-574-5). The page also includes a "Download PDF" button and a "HTML" link.

An exciting take on an important topic - periodic table bingo is a fun and engaging way to learn about the elements, their symbols and their uses. It can be differentiated to varying abilities and adapted to different levels or specifications

The periodic table is the lynchpin of chemistry. Most curricula require that students are familiar with the first 20 elements of the periodic table. This activity is designed to familiarise students with the names and symbols of the first 20 elements of the periodic table and iron, copper, silver and gold. The activity can be adapted for age and ability and used across ages 10-16. At primary the game should be used with the words and images cards to familiarise students with the names of the elements. At 11-16, the difficulty and challenge of the game may be varied by mixing and matching the different sets of cards and counters.
